Selected Conservation Practices - (Total Maximum Points 100 plus tie breaker)			
Any practice used in the ranking criteria and intended to be included in the conservation plan of operations must be cost-shared or have an incentive payment. Higher priority (value) should be given to those practices which address multiple resource concerns, are cost effective, and have longer life spans. Use the Quality Criteria in the FOTG to establish the practices that have an impact on the identified resource concern. Some example practices are listed below:	Potential Points	Percent of need to be installed.	Points
Soil (Erosion), Water (Quality, Quantity), Air (Quality), Plants (Health), Animals (Habitat)
